

Executive for Personnel and Administration

22 May 1947

Advisor for Management, ICAPS

Abolishment or Reduction of Personnel Pool

1. In view of the fact that either tentative or final T/O's of some description are now in effect for most of OIG and that all activities are covered by some means of grade allocation, either inherited or established, there is no apparent necessity for continuing the personnel pool, at least at its current, quite large strength.

2. Request your recommendations relative to either abolishing the authorization for this pool or reducing it to a small number of grades not to exceed approximately 10 or 12.
